| | | |

Allowable Subject Matter

Claims 1-24 allowed.

The following is an examiner's statement of reasons for allowance: While C-shaped piezoelectric and magnetostrictive elements are generally known in the art, application of them to microactuator read/write heads is not shown nor fairly suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Direct inquiry concerning this action to Examiner Dougherty at (703) 308-1628.
